

## Chillin' with Ice

by Bobby S.

Together, JJ Jenkins, George Peterson, Walter Bush, Christian La Rocca and Kristian Habenicht are **ARIEL**. Ariel is an Alameda, California based rock band. They have just released their third CD "**Sure Thing, You Bet!**" And we here at *White Line Magazine* were lucky enough to get a copy to review. I was really impressed with the wide range of songs "**Sure Thing, You Bet!**" contains. When listening for the first time I didn't know what to expect next, it was an awesome musical adventure.

While the overall feel of the music is the old '70s style hard driving rock, there is a pleasant mix. Through it all the driving guitars and soaring leads stick with you just as much as the memorable lyrics. You get so much variety from the sixteen tracks it's just great! Whether you're craving music to bob your head to or looking for something to sway with while holding someone close in your arms, you should find whatever you're looking for on this disc.

I would definitely recommend getting this CD and giving it a listen. It's managed to stay in my CD player through more than one play through. Once the songs get to you, you'll be singing along with the band, and that's the best compliment I can give! Is it a "Sure Thing"? You Bet!

Until next time, Ride safe and free!
